ENGL 220 Team Charter

Team Members:
Khaldoun Saadeddine (Team Manager), Youssef Abou Ali, Kel Doliente, Aazim Amin Rafeeq, Hiba Syed

Date Submitted: February 15, 2026

Broad Team Goals :

1. Mutual understanding toward an agreement.
2. Collective and constructive progress.
3. Ensure every member understands the topic at a proficient level.
4. Create a unique poster.
5. Attract collaborators for future work.
6. Create a meaningful impact on QNV 2030.

Measurable Team Goals :

1. Divide the overall workload into small, feasible milestones, taking into consideration members' availability and capabilities.
2. Set a 75% attendance requirement for all members.
3. Use clear and simple language for universal understanding in the final project.
4. Provide well-reasoned and well-supported arguments for all our claims in the research.

Personal Goals :

Khaldoun Saadeddine

- Improve time management skills to maximize efficiency.
- Develop communication and team management skills.
- Improve confidence level to be able to deliver the intended message fluently.
- Enhance research skills.

Youssef Abou Ali

- Develop my research skills.
- Maximizing my work efficiency.
- Improve my time management.
- Using my skills to achieve collaborative goals.

Kel Doliente

- Develop confidence in public speaking.
- Expand speaking and writing vocabulary.
- Overcome social anxiety and build meaningful, fruitful connections.
- Become a valuable collaborator for future endeavors.

Aazim Amin Rafeeq

- Manage my time while fulfilling all my responsibilities in all the roles I play in my life
- Learn to research the right way by looking in the right places and sources
- Develop better articulation in my speech
- Expand this research into something bigger and build new connections

Hiba Syed

- Get over my fear of public speaking
- Improve team energy
- Being able to work with constructive disagreements
- Be the clarity person

Individual Commitment:

Khaldoun Saadeddine

- I commit to completing assigned tasks to the utmost, working for the general benefit of the whole group, and resolving any obstacles we face throughout the project, ensuring the group has a positive, inclusive atmosphere.

Youssef Abou Ali

- I commit to completing my required work effectively, keeping a great team atmosphere, and ensuring that we are on the right track.

Scanned with CamScanner

Kel Doliente

- I commit to doing my utmost to complete the tasks I am capable of to the highest standard. I will respectfully decline tasks or commitments that I know I cannot deliver at a high standard.

Aazim Amin Rafeeq

- I commit to doing my best in every task I am assigned and initiate on my own. I will maintain utmost professionalism and respect the time of the team members.

Hiba Syed

- I commit to completing my assigned tasks and responsibilities at least a day before the deadline and to communicating with my teammates should I face any difficulties long before the assignment is due.

Other Concerns :

Khaldoun Saadeddine

- I worry that academic work would get in the way of my responsibilities as a team manager.

Youssef Abou Ali

- I worry that the workload and tight deadline will affect my work product.

Kel Doliente

- I worry that my limited English-speaking skills may hold the team back.

Aazim Amin Rafeeq

- I worry that limited time and responsibilities outside of the project will hold all of us back from providing our best work.

Hiba Syed -

- Public speaking makes me nervous, which I feel can be a downside, considering that I may not be able to showcase what I have done to the highest level.

Conflict Resolution :

- If the team doesn't agree on a specific decision, the team should meet and discuss possible solutions, using respectful communication and voting when needed. However, if the issue isn't resolved, both points of view should be presented to the professor to decide for the team.

Missed Deadlines :

If a task cannot be completed by the agreed date, the member must inform the group at least one day before. If no notice is given, the member will receive a warning recorded by the group. Any violations after the first warning will be reported to the professor. If completing the work is not possible, the member may ask another member to help, but it should be understood that this is not their responsibility.

Unacceptable Work :

-Academic Work:

The member's work submission is observed to be a blatant use of AI. Constant late submissions without prior notice. Lack of communication with group members, such as ignoring messages and emails, and failing to provide regular updates on tasks. Also, not showing up to meetings and failing to do enough work to meet basic requirements.

-Inadequate behaviors:

The individual is disrespecting team members, frequently making fun of others' ideas and opinions while forcing their own opinions on the group. This conduct makes others feel inferior and ultimately creates a bad group environment.

Scanned with CamScanner

Upon signing, members agree to follow all the rules and responsibilities stated above. This team charter serves as a contract between all members and shows their commitment to work together respectfully, responsibly, and fairly throughout the project.
